### **DM2 Software Earns Sage Software's 2009 "President's Circle" Award**

*DM2 Software has been honored with this prestigious award for 11 consecutive years*

**VANCOUVER WA, January 7, 2010** – Each year, Sage Software recognizes its partners with the Partner Advantage Award Series. This prestigious awards program recognizes top partner sales performances. Partners are rewarded for their diligence in representing Sage products and consistently going above and beyond to achieve sales excellence throughout the year. For the 11th consecutive year, and since the award was first conceived, DM2 Software, Inc., has received the President's Circle Award from Sage Software. The President's Circle Award recognizes partners who achieve the top spots in specific award categories. This year, DM2 Software was included for being the top new MAS 90 and MAS 200 new license reseller. It is quite an achievement considering that more than 5,000 resellers compete for this annual award.

Sage Software supports the needs of nearly 2.8 million small and mid-sized businesses in North America through easy-to-use, scalable and customizable software and services that support accounting, operations, customer service, human resources, time tracking, merchant services and other specialized business operations.

"We are extremely proud to have earned Sage Software's President's Circle recognition for the 11th consecutive year," said Scott Burkard, President of DM2 Software. "This award underscores the strong relationship Sage and DM2 have developed over the years."

This distinction earns award-winners a spot at Sage's President's Circle, where they will be honored at the official awards ceremony to be held at the historic Biltmore Resort & Spa in Phoenix, AZ, Jan. 25-27, 2010.
