DM2 Software Earns Sage Software's 2010 President's Circle Award

DM2 Software honored with this prestigious award for the 12th consecutive year

VANCOUVER, WA, Dec. 21, 2010 – Each year, Sage Software recognizes its partners for representing Sage and consistently going above and beyond to achieve annual sales excellence with its Partner Advantage Award Series. This year's President's Circle Award recognizes the top partner sales performances for the fiscal year ending Sept. 30, 2010. A Sage MAS 90 and MAS 200 Master Developer and Reseller since 1991, DM2 uses MAS 90 and MAS 200—Sage's back-office/ERP systems that have been designed for general wholesale distribution applications—to develop, sell and support *Petroleum Insights*, a fully integrated system designed specifically for petroleum-distribution applications.

With that in mind, DM2 Software is proud to announce that for the 12th consecutive year, and since the award was first conceived, it has received Sage's President's Circle Award. This year, DM2 Software is being honored for being the No. 2 reseller for MAS 90 and MAS 200 product sales, which is quite an accomplishment considering that more than 5,000 resellers compete for this award annually.

"We are extremely proud to have earned Sage Software's President's Circle Award for the 12th consecutive year," said Scott Burkard, President of DM2 Software. "This award underscores the strong relationship we have developed with Sage."

President's Circle award recipients for 2010 will receive further recognition from Sage with an executive retreat at the Hotel del Coronado, the quintessential San Diego, CA, luxury hotel, from Jan. 31 through Feb. 3, 2011.
