DM2 SOFTWARE EARNS SAGE SOFTWARE'S 'PRESIDENT'S CIRCLE' HONOR FOR EIGHTH STRAIGHT YEAR

VANCOUVER WA, March 20, 2007: [DM2 Software](http://www.dm2.com), which provides accounting and other business-management software to petroleum distributors nationwide, has been named to Sage Software's President's Circle for the eighth straight year. The designation honors Sage business partners that generate the highest revenue on the sale, installation and support of Sage's MAS 90 ERP and MAS 200 ERP accounting software programs for the fiscal year that ended September 30, 2006.

Fewer than 75 Sage business partners earned the President's Circle designation in the annual competition among more than 5,000 companies throughout North America. DM2 Petroleum Insights is DM2's petroleum-distribution industry-specific ERP system based on MAS 90 and MAS 200 ERP. DM2 placed among the top 10 in MAS 90 ERP revenues for the eighth straight year.

"Each year making our President's Circle gets more and more competitive, as so many of our business partners do a great job of expanding their businesses and growing their bottom lines," said Taylor Macdonald, Sage Software executive vice president, channel and sales operations, Mid-Market Division. "DM2 Software has risen to the top through dedication, hard work and outstanding sales achievement, and we look forward to continued success from our partnership."

DM2 has been a Sage business partner since DM2's founding in 1989. "We're delighted to earn the President's Circle designation once again," said Scott Burkard, DM2's president. "It demonstrates the three-way partnership among Sage, DM2 and our customers who rely on our products every day."
