DM2 Software Acquires StoreLink™ Source Code from TMI

Acquisition benefits DM2 customers by providing quicker solutions to unique requests

VANCOUVER, WA — DM2 Software, Inc., a leading provider of business-management software solutions to the petroleum-distribution and convenience-store industries, announced today that it has acquired the source code for its StoreLink™ back-office solution from TMI Services, Ft. Worth, TX. Designed specifically for petroleum distributors who also have convenience-store operations, DM2 Software's StoreLink back-office software product automates the process of operating a convenience store by providing customers with robust accounting and inventory-management system. With the acquisition of the source code, DM2 Software will be able to better serve its customers currently using the StoreLink product by providing a faster response time for service requests and adding unique features in a timely fashion. Convenience-store companies using existing TMI software can easily convert to DM2 Software's StoreLink solution.

“This is a huge step forward for DM2 Software. By acquiring the source code, our company will be able to significantly decrease the time it takes to respond to our customers,” said Chris Lemonier, DM2 Software's Vice President of Technology & Support. “DM2 will have complete control over the development and support of StoreLink, and can add unique software features without having to deal with a third party.”

Since 1989, DM2 has been developing software and working to help diversified petroleum marketers increase market share and improve profitability through automation. DM2 Software is built on Sage MAS 90 and Sage MAS 200 accounting software. DM2 is proud to be a Sage Software Vertical Marketing Partner (<http://www.sagesoftware.com/>), member of the Sage Software President's Circle of resellers and Sage's No. 2 VAR in the U.S. DM2 has been ranked in the Top 10 Best Authorized Partners for eight years running. For more information call DM2 at (800) 866-5151 or visit our Web site at www.dm2.com (<http://www.dm2.com/>).
